SHERMAN AS A CANDIDATE

(Continued from Page Four).

support to Taft and the recognized powers of the administration. But in all this, Mr. Sherman will be merely following precedent; tramping along in the footsteps of his elongated predecessor. He knew this when he first announced himself a candidate for the Vice Presidential nomination, and he will not be disappointed. But matters of policy aside, Sherman should make a good Vice President, for he is quite familiar with parliamentary procedure, having acted as Speaker of the House on more occasions than any other man called to the chair by Speaker Cannon. Sherman can do the presiding act to the full satisfaction of the Senate, and as long as he confines himself to such duties he will make a hit with the President and with the Senate. But there he will have to stop. Precedent—so sacred around the Senate chamber, will not permit the Vice President to do more.

CUT PRICES

Soda Water Prices have been cut from **35c. to 30c. a dozen.**

(60c. per case)

Although our soda is known to be far superior to any other made in this city, we have met the cut, and will supply any of our popular flavors at 30c. per dozen until further notice.

NO ONE can beat this offer—the BEST QUALITY at the Lowest price. This is your chance—don't miss it.

CLOSE BIDDING ON CONTRACTS

COMPETITORS DO SOME VERY FINE FIGURING IN RECENTLY ADVERTISED JOBS.

Otto Oss, of this city, is apparently the lucky bidder for the job of building the cottage for the teachers in the school at Paia, Maui. The bids for this work were opened last Saturday by Superintendent of Public Works Marston Campbell, three tenders being received. Oss was the lowest man, with a bid of \$1988. J. A. Aheong, of Maui, and formerly of this city, came second with a bid of \$2159; while Thomas L. Andrews, of this city, was only a few dollars behind, offering to do the work for \$2195.

The bidding on the job was exceptionally close, which has been very noticeable with all the contracts of late. The bidders seem to be watching their work and figuring very closely at present. The contract for the new school building at Paia will be given out this month and it will be one of the best of its class in the Territory.

BIRTHDAY OF THE TERRITORY

TENTH TERRITORIAL ANNIVERSARY NEXT WEEK IS TO BE OBSERVED AS HOLIDAY.

August 12, which will be the tenth anniversary of the raising of the American flag in this city will be celebrated as a holiday in Honolulu. The courts will all be closed on that day and Governor Frear has stated that the Government employees will also be given a day to themselves. The banks will not open and a petition is being circulated among the business houses which will probably result in a general closing.

The chief celebration will be held at Punahoa, Maui, where there will be all sorts of athletic games, including polo, tennis and baseball. The annual dance given by the Baldwin on the ending of the sugar season will also take place on that day.

Superintendent of Public Works Campbell did not show up at his office this morning, as he was quite painfully hurt in a fall at the Nuuanu dam on Saturday.

A VIEW OF THE FLEET CRUISES

THE SUBSTANTIAL ALLIANCE OF GREAT BRITAIN AND THE UNITED STATES.

"Along about October," said a foreign naval officer aboard the S. S. Korea, recently passing through here, "the United States will have most of her big fighting machines in the Orient. Is it not quite a coincidence, I ask, that practice and experimental cruising of Atlantic and Pacific fleets should throw America's greatest force right at the Orient gates?"

"I have heard it said, in criticism of the United States Government leaving the Atlantic with but a few vessels, that it was unwise to put all the naval power into the Pacific when there might be trouble brewing in the Old World, but I have answered such criticism with my opinion, which is that Great Britain will take care of the Atlantic, and not to America's disadvantage."

"I look at it in this light: There are two oceans, though there may be seven seas. There are two powers, though there may be ten horns to the dragon of world-influence. There is but one idea."

"The two oceans are the Atlantic and the Pacific. The two powers are the British and American. The one idea is, well—shall we call it commerce? Poets may look beyond commerce and call it brotherhood or universal peace or the millennium, anything they will, but trade is the stepping stone and Britain and the United States are the guardians of the stairway."

"As for me, I'm out of it. I've lived my life," but I'm still able to observe."

THE LICENSE COMMISSIONERS

MEETING THIS AFTERNOON FOR THE CONSIDERATION OF KICKS AND APPLICATIONS.

Meeting of the Liquor Commissioners will be held this afternoon at which several rather interesting matters will come up. The first of these is in relation to a letter which was written to C. J. McCarthy in regard to the manner in which his restaurant on Palace Square is being handled. He was informed that a complaint had been made and asked to conform to the rules of the board.

In reply McCarthy is anxious to know what the complaint is and just what he can do to satisfy the commissioners. As a matter of fact the whole trouble comes over the same proposition that the board fought Scotty on. They claimed that he conducted a saloon as well as a restaurant and that the saloon business was the main affair and the eating in the house was secondary to the drinking. In their eyes the class of license which McCarthy holds seems to be one which entitles him only to sell liquor to patrons who come in

SEND YOUR DONATION FOR THE HOSPITAL

Donations for the new Children's Hospital have now reached the \$93,000 mark, and of the total amount necessary only \$7,000 is due. W. R. and G. P. Castle each sent in their check to J. F. Morgan this morning for \$1000, and every one who has the movement at heart, is confident that the amount will all be on hand before the end of the week.

"The increased interest in the hospital is bound to have some effect on the subscriptions," Morgan stated.

AT THE HOSPITAL

EDITOR STAR:—I wish to draw your attention to an item in Saturday's Star, which states that "Portuguese friends of Mrs. Fernandes complain of the treatment she received at the Queen's Hospital." The facts are as follows: Mrs. Fernandes was brought there by two young men and later a young woman came to see her. Dr. Sexton, our resident physician examined her and told her to stay in the hospital, which she refused to do, I then spoke to her in Portuguese and also advised her to stay, but she repeatedly said she wanted to go home. Dr. Sexton told the young women, who spoke good English, that that Mrs. Fernandes needed some physician to look after her and was told that Dr. Herbert was the family physician. At her request a hack was telephoned for and the two women left the hospital. Yesterday, Mrs. Fernandes was brought to the hospital by the police patrol. Yours truly,
JOHANNES F. ECKARDT.

for meals and wish to drink while they are eating.

An application for a transfer from W. C. Peacock to "Al" Thurlow, of the license for the "Royal Annex" restaurant will come up, the needed papers being placed on file this morning. It is understood that Mrs. Kienma's application for Sunday privileges for her "Aloha Aina" restaurant may also come up in some form. The Commissioners apparently are not favorable to her plans.

WANDERING MINSTREL BACK

P. Maurice McMahon, after an absence of four years, finds Honolulu a good "rest cure," so he says, and his stay here may be protracted.

When P. Maurice left here he went to San Francisco, thence to Mexico and then to Los Angeles. From the City of the Angeles he returned to the witchery of Mexican life.

Soon, yearning for less cactus and more society, he went to Chicago. Chicago wasn't big enough for him so he ran on to New York.

After New York his nerves needed quiet and peace, so he went to England, doing London and visiting his home folks.

He returned to the only New York for a while and then found his way back to Mexico. From the City of Mexico he went to California and thence came here. McMahon may cap the climax by going to Hilo. The young poet is wearing his hair long these days.

NEW SYSTEM FOR HANDLING COAL

INTER-ISLAND COMPANY PREPARING TO INSTALL ITS ELEVATED RAILWAY PLANT.

Great drays and trains of drays are making the waterfront tremble with their loads of iron pillars and parts for the coal-handling elevated railway system about to be installed by the Inter-Island Steam Navigation Company on its property at the Walkiki end of the harbor.

These drays have for several days been hauling heavy sections from the Ewa end of the harbor where they were deposited by the American-Hawaiian S. S. Virginian and other vessels of the American-Hawaiian line.

All the material necessary to the construction of the up-to-date coal-handling system is here and actual work will be started at once.

It is expected that the system will be in operation within three months and then coilers will be discharged and ships will be bunkered, in what is known as the Bishop slip, in double-quick time.

ed this morning, "and I feel hopeful that we will have the work of building under way before very long." As soon as the total amount needed is on hand the committee who have charge will select a site for the new buildings. The committee wish to announce that money no matter how small will gladly be received for the good cause, and any one wishing to contribute, can send their donation to J. F. Morgan at his office on Kaahumanu street.

A PHILIPPINES QUARANTINE MAN

CHIEF OF SERVICE ON HIS WAY HERE ON MONGOLIA AND WILL STOP OVER.

Dr. Helser, the chief quarantine officer of the Philippines is now on his way to this city on the Mongolia, which is due here on August 28, but which may not arrive till later on account of the trouble which she got into in the Hongkong typhoon which she went through recently. This news came here by cable this morning to Governor Frear in a message from Governor General Smith of the Philippines.

Governor Smith states that Dr. Helser will stop over in Honolulu for some little time and asks that he may be afforded all facilities for a general inspection of the health conditions here, particularly in regard to leprosy.

Governor Frear stated this morning that the visiting official would be paid every possible attention and that a trip to the Molokai settlement would be arranged for him if possible.

WHERE THE WILD WAVES WHISTLE.

Funny expression; waves moan more than they whistle but at Haleiwa everything is different. You secure better service than in town and you sleep in a comfortable room that is proof against mosquitoes. The cuisine, the climate, the verandas and everything connected with the hotel, including the service, is the best in the islands. Manager Biddgood has a standard of excellence which every employee of the hotel must not get under. It is worth a visit to see how like a clock it works.

The inventory of the estate of Annie Laffin Roe shows in its to be worth \$4250, the main item being two lots and three houses on Kalakaua avenue.
